

**Rhode Island Department of Labor and Training (RIDLT) Bulletin  
New Option: IAIABC Claims Release 3 Standards utilizing ACORD XML Standards  
Request for Trading Partner Feedback**

Date: 1/15/16

RIDLT is pleased to announce that RIDLT is expanding reporting options for Trading Partners and will now accept the use of IAIABC Claims Release 3 Standards utilizing ACORD XML Standards. RIDLT initially announced plans to implement these XML standards at the 2015 IAIABC Forum on April 14, 2015. Please note that the use of the XML format is an option only and is not required by Trading Partners who prefer to continue to use the current IAIABC Release 3 Flat File.

RIDLT is currently seeking feedback from RIDLT Trading Partners who have an interest in testing and subsequently reporting First Report and Subsequent Report of Injury to RIDLT utilizing these IAIABC and ACORD XML standards.

Please contact RIDLT by responding to this email to [ridltedi@iso.com](mailto:ridltedi@iso.com) if you are a RIDLT Trading Partner interested in testing and subsequently reporting First and Subsequent Report of Injury to RIDLT utilizing these IAIABC and ACORD XML standards. RIDLT will subsequently provide additional information to interested Trading Partners concerning the IAIABC and ACORD XML Standards and RIDLT Test Plan and Schedules.

RIDLT is excited about the new option for use of XML by the Trading Partners and encourage you to take advantage of the new option.

Thank you,  
*Rhode Island Department of Labor and Training EDI Support Team*
